NEMO PRODUCT
INNOVATIONS

NEMO is constantly developing new aluminum pole technology, hardware, and frame configurations to maximize the strength, wind resistance, interior volume, weight, and usability of our tents. We pursue simplicity and pure geometric forms wherever possible. Classic arch shapes are used to fend off top loads and catenary curves transfer tension through fabric panels. Every design element is deliberate and has a functional purpose, much like nature itself.

BLAZE™ 2P HIGHLIGHTS

Nearly vertical sidewalls provide an unbelievable amount of livable space

Setup is fast thanks to the **innovative pole configuration**. Blaze has half the number of pole attachments of most ultralight tents.

Two vestibules provide ample gear storage, and two doors make for an easy exit and entry.

An interior mesh pocket is nicely sized to fit glasses, watch, or your phone.

BLAZE™ 2P ACCESSORIES

FOOTPRINT

Footprints reduce the wear and tear on your tent floor from contact with the ground. They are made of 75D abrasion-resistant nylon fabric and perfectly sized to your tent. The fabric is PU coated for water-proofness.
