NEMO PRODUCT
INNOVATIONS

NEMO is constantly developing new aluminum pole technology, hardware, and frame configurations to maximize the strength, wind resistance, interior volume, weight, and usability of our tents. We pursue simplicity and pure geometric forms wherever possible. Classic arch shapes are used to fend off top loads and catenary curves transfer tension through fabric panels. Every design element is deliberate and has a functional purpose, much like nature itself.

DAGGER™ 3P HIGHLIGHTS

The DAC Jake's Foot corner anchor system makes setup fast and easy. The Jake's Feet also improve fabric tension by acting as cantilevers to pull the corners of the inner tent closer to the ground.

Simple setup with a **single hubbed pole**.

Two doors and two generous vestibules eliminate awkward entries/exits and provide ample gear storage.

An integrated light pocket diffuses light from your headlamp to cast an even glow throughout the tent.

Interior mesh pockets are sized to fit glasses, books, hats, or gloves.

Our new Divvy™ Sack dual-stage stuff sack fits the tent and poles or adjusts smaller to further compress the tent and split the load.

Inner tent has a built-in **privacy panel** for extended coverage and security.

DAGGER™ 3P ACCESSORIES

FOOTPRINT

Footprints reduce the wear and tear on your tent floor from contact with the ground. They are made of 75D abrasion-resistant nylon fabric and perfectly sized to your tent. The fabric is PU coated for waterproofness.

PAWPRINT™

Pawprints™ are removable liners perfectly sized to button snap to the inside corners of your tent. They protect your tent floor from boots and paws, and add serious comfort. Pawprints™ are made of soft machine-washable brushed polyester. Place your sleeping pads between a Pawprint™ and floor to help them stay in place.

GEAR LOFT

Gear Lofts add additional overhead storage without compromising floor space or elbow room. Made of mesh and featuring two storage pockets and two Light Pockets™, the Gear Loft is perfect for drying clothes or stashing gear for quick access.
