NEMO PRODUCT  
INNOVATIONS

NEMO is constantly developing new aluminum pole technology, hardware, and frame configurations to maximize the strength, wind resistance, interior volume, weight, and usability of our tents. We pursue simplicity and pure geometric forms wherever possible. Classic arch shapes are used to fend off top loads and catenary curves transfer tension through fabric panels. Every design element is deliberate and has a functional purpose, much like nature itself.

### **GALAXI™ 3P HIGHLIGHTS**

**Generous vestibules** offer protected entry and dry gear storage. Tie back one or both of the doors, or close both for full protection.

**MagTie™ magnetic door** tie-backs make it simple to roll back your door and keep it out of the way.

**An integrated Light Pocket™** diffuses light from your headlamp to cast an even glow throughout the tent. Interior mesh gear pockets are sized to fit glasses, books, hats, or gloves.

## GALAXI™ 3P ACCESSORIES

**Footprints** reduce the wear and tear on your tent floor from contact with the ground. They are made of 75D abrasion-resistant nylon fabric and are perfectly sized to your tent. The fabric is PU coated for waterproofness.

**Pawprints™** are removable liners perfectly sized to button snap to the inside corners of your tent. They protect your tent floor from boots and paws, and add serious comfort. Pawprints™ are made of soft machine-washable brushed polyester. Place your sleeping pads between a Pawprint™ and floor to help them stay in place.

**Mesh Gear Lofts** add additional overhead storage without compromising floor space or elbow room. Perfect for drying clothes or stashing gear for quick access, many Gear Lofts include Light Pockets™ for a headlamp, which use a light-diffusing fabric to cast an even glow throughout the tent.
