NEMO PRODUCT
INNOVATIONS

Strato Loft™ mates with most any 25" x 76" sleeping pad. A zippered pad sleeve with internal stretch panel snugly holds the pad in place for warmth and sleep comfort.

Store Strato Loft™ with a pad inside — deflate, roll up and be ready for a quick getaway.

Box baffle construction is a high loft, thermally efficient, two-way baffle system that gives a full three dimensions to each baffle for even, continuous warmth.

DownTek™ 700 Fill

Insulation Technology

DownTek™ 700 fill power down with DWR repels water while maintaining its loft and insulation, even in the wettest conditions. DownTek™ also dries more rapidly than untreated down and provides antimicrobial protection, extending the life of your bag.
